TOREA CONSULTING, LTD'S OBJECTION TO MODIFICATION OF SALE

Movant Torea Consulting, Ltd. ("Torea"), by and through its undersigned counsel, hereby files this limited objection to the Modification of the Asset Purchase Agreement (docket No. 124) for the purpose of protecting the information requested by Torea in its 2004 Examination Request (docket No. 122).

1. Torea incorporates paragraphs 1 through 12 of its 2004 Request as fully rewritten herein.
2. The following came to the attention of counsel for Torea this morning:

 **@zee GCOIN** Hi is the contract for hosting will be renewed? (edited)

 **MWDATACO** 12/27/2021
I believe so, just waiting to hear back on any updates

 **@Studebaker** I would assume from the text above if any cvp's were available, they would be inoperable

 **mDoza** 12/27/2021
Would be nice to get some clear answers on this [@MWDATACO](#) if there's something I need to reply to it would be nice to have some clear direction. I'm not trying to lose out on my 8 cvps I sent for hosting for 2 months before this happened. **sos**

 **MWDATACO** 12/27/2021
[@mDoza](#) I'm still awaiting news but will reach out ASAP - if the CVPs are undamaged then they should either be returned to you or go back online once the legalities are finalised. If they were damaged then that would be through insurance.

I received a claim form in the mail. In what case do we need to file a claim form against MWDATACO? Is this for downtime reimbursement, or insurance claim?

 **MWDATACO** 01/05/2022
Hi folks, unfortunately the buyer for MWDATACO in the bankruptcy has opted not to continue the hosting service due to the small number of remaining customers. They are interested purchasing the remaining hosted hardware as is, so even if your boards were damaged in the fire, a reasonable offer should be available. I will be sending emails to remaining customers today with more details and to keep you informed of next steps.

 **zee GCOIN** 01/06/2022
how long do we have to make this decision? I dont know the fair value of my hardware.. Are there option being discussed to transfer the cards to other hosting facilities?

 **zee GCOIN** 01/06/2022
How are you guys claiming mined ether from ether mine? It's asking for IP address of the miner to claim the mined ether

 **breukmeister** 01/07/2022
Yes thats the normal procedure

 **snipe-** 01/07/2022
[@breukmeister](#) not that easy with mwdataco as public IP might not be known (edited)

3. These communications indicate that the prospective Buyer is negotiating agreements directly customers and owners of specific equipment outside the scope of this process. The confusion that could result and spoliation of evidence is a risk that must be addressed prior to the closing of this piecemeal liquidation reflected in the modification.
